

The Five Star – Group

Five Star Tours is a consortium which consists of four independent Tour Wholesalers – 3 in Germany and 1 in Austria. The Five Star Group was founded nearly 20 years ago, to jointly coordinate, plan and purchase all kinds of touristic services needed for the production of brochures and websites. All partners have been doing business on the North American market (The USA and Canada) for at least 25 years. The names of those companies are well known and highly reputed among a large number of North American suppliers.
